DETAILED ACTION

Response to Amendment

1. This action is in response to the amendment filed on 7/24/06. Claims 1-10 and 12-21 have been canceled and claims 11 and 22-28 are pending in the application.

Allowable Subject Matter

2. Claims 11 and 22-28 allowed.

3. The following is an examiner's statement of reasons for allowance:

As claims 11 and 22, the prior arts in the record fail to disclose or make obvious to a method and device comprising a byte alignment unit functionally connected to the central buffer to ensure that only frame byte aligned data are written into the central buffer within a structure of the claims.

As claims 23 and 26, the prior arts in the record fail to disclose or make obvious to a method and device comprising a plurality of receive processing units operatively coupled in series, wherein each one of the plurality of processing units is coupled to selected ones of the storage elements and said each one of the plurality of processing units examining the frame which is read from a network device by a data scanning unit and extracting information from predetermined portion of said frame and forwarding the remaining portion of said frame to downstream processing units; and a payload handler receiving the payload in said frame and parsing the payload to generate different data types embedded in said payload within a structure of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
